ELECTION EQUIPMENT TESTING TO ENSURE ACCURACY
Public Test of Ballot Tabulating Equipment on October 14, 2022

The November 8, 2022 General Election is officially underway with ballots out in the mail. The Contra Costa County Elections Division will perform the county’s official logic and accuracy testing on central ballot counting and processing equipment at 10:00 am Friday, October 14th, 2022 at the Elections Office, located at 555 Escobar Street in Martinez. The public is invited to observe.

Logic and accuracy testing is a standard pre-election procedure. The test will confirm that all central count equipment is in working order and functioning properly. A set of test ballots will be run through each scanner to ensure they are properly programmed and operating as expected.

If you would like to observe this process, we encourage you to let us know in advance by contacting the elections office at 925-335-7800. On the day of testing, visitors will be asked to check-in at the Elections lobby.
